

Cyber Security Vision Statement

Our vision:

NAVTOR will be an industry leader in safeguarding digital trust. We will achieve this goal by persistently protecting our systems, data, and customer information. Our security posture will be founded on sustainable industry standards and best practices.

NAVTOR is committed to an approach to cyber security that is adaptive, holistic, and proactive. It is our mission to ensure the highest levels of confidentiality, integrity, and availability of our services.

In concert with our dedication to compliance and collaboration, our proven track record of innovation will underpin our security posture. This will earn us the continued confidence of our customers, partners, and stakeholders.

Together, we will build a unified, resilient digital ecosystem, where security is the foundation of our success. In this way, NAVTOR is committed to assisting the maritime industry in charting a secure course - for a safe and sustainable future.
